Re: CAS RN: 2451-62-9, 1,3,5-Triazine-2,4,6(1H,3H,5H)-trione,
1,3,5-tris(oxiranylmethyl)-

Dear Mr. Auer:

I have received your letter dated 4/12/2004 to Lorraine Kapilow regarding the status of the HPV program we are sponsoring. I would like to report to you the followings:

1. Our company has changed its legal name from Vantico Inc. to Huntsman Advanced Materials Americas Inc since January 1, 2004. We have communicated with EPA earlier and I have attached the letter below for your reference.
2. Lorraine Kapilow has left the company and I am responsible for the HPV program now. We will continue to sponsor.
3. We have had the robust summary in the EUCLID format and a draft summary for the test plan. Due to the above changes, we delayed and now are in the final stage.
4. We are planning to submit to EPA in the near future.
5. Please register us (Huntsman Advanced Materials Americas Inc.) in the program and issue a new Sponsor number. The old number, _____ was for Ciba - Performance. We will update the robust summary when the new number is available.
6. This HPV program is sponsored by Huntsman Advanced Materials Americas Inc. and Nissan Chemical Industries, Ltd. (Sponsor Registration number _____). If a Consortium number is needed, please issue a number as well.

Please feel free to contact me if you have any questions/concerns.

Thank you and best regards,
Andy

Re: Company Name Change

To Whom It May Concern:

This letter is to notify you as a courtesy that Vantico Inc. has formally changed its name to Huntsman Advanced Materials Americas Inc., as of December 31, 2003. We had previously advised the EPA of the impending name change in a letter dated December 19, 2003 to Mr. Roy S. Seidenstein from Jean Warshaw. A copy of that letter is enclosed.

None of the products will be changed as a result of the name change. All products will continue to be manufactured in the same facilities and will otherwise remain the same.

If you have any questions, please feel free to contact me at (914) 785-3129. Thank you for your consideration.

Sincerely yours,

Dr. Andy Wang
